Columbia Records

ALPHABETICALLY ARRANGED.

READ THESE NOTES FIRST.

THIS catalogue is in itself a complete Alphabetical reference to the general repertoire of Columbia Records. Dance Records will be found in full in a separate Dance Catalogue. This General Catalogue covers, in alphabetical form, each title, and each artist. orchestra, or other performers. The only exceptions to this are certain Children's Records.

Detailed explanation of the catalogue should be unnecessary on account of its simplified form, but in order to assist in a ready understanding of the principles upon which it has been compiled, the following should be noted. There are only two sections to this catalogue—the main Alphabetical arrangement and a list of the Columbia Artists, Orchestras, etc., represented therein, the latter being given immediately following these notes.

TITLES.

The title of each selection is shown twice, *i.e.*,

(*a*) In its Alphabetical order in detail;

(*b*) Under the heading of the Artist in abbreviated form.

The words "A" and "The" are omitted at the beginning of titles. Such titles as "A West-Country Courting" and "The Diver" will be found under "W" and "D" respectively.

In the order as (*a*) titles are shown with the name of the Composer, the Artist or Performer, the colour of the Label and the Number of the Record, in the following style :—

Title.	*Composer.*	*Artist.*	*Label*	*No.*
Abide with Me	(*S. Liddle*)	**Dame Clara Butt**	*PD*	**7374**

To find the reverse of this title, note the Record Number and see under the heading of the Artist's name, where the Records are arranged numerically, and grouped under their respective sizes (10-inch and 12-inch), thus :—

BUTT, Dame CLARA, Contralto.

7374 { Abide with Me. Key C (With Organ and Piano)
God Shall Wipe Away All Tears. Key E

The full particulars relating to the title on the reverse side, "God Shall Wipe Away All Tears," will be found under "G" in its Alphabetical order. This applies generally.

LABEL SERIES.

The colour of the label is denoted by the following abbreviations :—

PINK,	Single-sided (Nordica only)	*Pk*
PURPLE,	Single-sided (Ysaye only) ..	*PS*
PURPLE,	Double-sided	*PD*
LIGHT BLUE.	Double-sided	*LB*
YELLOW,	Double-sided	*YB*
DARK BLUE,	Double-sided	*DB*
MAGENTA	Double-sided (Dance Series)	*FB*

These abbreviations appear in *Italics* against each Title in its Alphabetical order, the label colour being also given under the name of the Artist. Black Italics mean 12-inch records. See next paragraph.

EXPLANATORY NOTES—*contd.*

RECORD SIZES.

Record sizes are shown under the Artist's name, as heretofore, but in addition the sizes are indicated in the column of *Italic* abbreviations against each Title. Thus light Italics (*DB*) or (*LB*) etc., indicate 10-inch records. Heavy Italics (***DB***) or (***LB***) etc., indicate 12-inch records.

PRICES.

The Label Colour denotes the Price Category. Record prices are given on page 2 of cover.

WHEN ORDERING RECORDS.

When ordering Columbia Records you must always give the Record No. *exactly as given in the last column only ;* or, of course, as given in the bracketed titles under artists.

ELECTRIC RECORDINGS.

The Records in this catalogue are Electric Recording except those few marked with an Asterisk (*).

PUBLIC PERFORMANCE LICENCES.

Copyright subsists in Columbia Records. Any unauthorised broadcasting or public performance of such records constitutes an infringement of such copyright and will render the infringer liable to an action at law. Licences for public performance or broadcasting may be obtained from Phonographic Performance, Ltd., 144, Wigmore Street, London, W.1.

LANGUAGE AND ACCOMPANIMENTS.

Vocal Records are sung in the language in which the title is printed, except where stated to the contrary.

Vocal and Instrumental Records are, in the majority of cases, orchestrally accompanied. The exceptions are noted under the heading of the Artist.

SUBJECT CLASSIFICATION.

A new feature has been introduced in the classification of subjects. Thus, all Violin Solos have been brought together under that head (as well as under respective artists, and in the alphabetical order of each title, as usual), this applying to numerous other subjects, such as Overtures, Humorous, Military Band, Sacred, Orchestral, etc. **Dance Records will be found in full in a separate Dance Catalogue.**

ORCHESTRAL CONDUCTORS.

While the names of Orchestral Conductors are given in Alphabetical sequence, the records conducted by them will be found grouped under the names of the orchestras. Thus the entry " Beecham (Sir Thomas) and the London Philharmonic Orchestra " refers the reader to " London Philharmonic Orchestra," where all the records by that orchestra will be found under the various conductors associated with it.

COMPOSERS.

The more prominent Composers are included in their Alphabetical sequence, and under their names are the works (orchestral, vocal and instrumental) which have been recorded.

ALBUM WORKS.

Particular attention is directed to the special sets of Records which are supplied complete in " Masterworks " Art Albums. A list of these Album

EXPLANATORY NOTES—*contd.*

Works is given under "Masterworks" in the Alphabetical pages. In addition, on other pages, this mark ¶ indicates an Album work. Albums accompanying records on Light Blue Label and Yellow Label are supplied without extra charge. Albums accompanying records on Dark Blue Label (marked ¶¶) are supplied at a slight extra charge—see page 2 of cover.

COMPLETE OPERAS, etc.

Columbia has sixteen complete operas, three complete and two concise oratorios, nine concise operas in portfolios, etc, and five concise light operas in portfolios.

AUTOMATIC COUPLINGS.

A number of the Album, Portfolio and other works in complete form is also available in Automatic Couplings for use on Automatic Record-changing Radio-gramophones. A list of these works will be found under the head "Automatic Couplings," and each work so available is marked "(A)" wherever the title occurs in the Catalogue. No extra charge is made for these Automatic Couplings Records, but they must be ordered under the special Automatic Couplings numbers. Albums, where supplied, are available as with the ordinary edition.

CHILDREN'S RECORDS.

See under the heading "Children's Records" in the Alphabetical pages.

EDUCATIONAL.

In addition to the many records of Educational value given in these pages, there is also a separate catalogue containing particulars of some hundreds of records of special educational interest. This can be obtained through "Columbia" Dealers, or direct from the Central Education Department, 98, Clerkenwell Road, London, E.C. 1.

EDUCATIONAL LECTURE RECORDS.

A special list of Educational Lecture Records appears in the end pages of the catalogue. These are records published by the Columbia Graphophone Co., Ltd., on behalf of the International Educational Society.

CINEMA SERVICE RECORDS.

An important addition to this Catalogue is the series of records for Cinema use. These will be found indexed under the following heads: "Stage Effects" Records; National Anthem for Cinemas. See Paragraph "Public Performance Licences" on preceding page.

DANCE RECORDS.

DANCE RECORDS are not included in the General Alphabetical Index, except in a few instances where they are linked up with a theatre production. A FULL LIST of Columbia Dance Records is issued in a separate Dance Catalogue.

GENERAL SUGGESTIONS.

SPEED OF RECORDS.

It is important that Columbia Records be played at the speed indicated on the label to ensure reproduction at correct pitch and tempo.

EXPLANATORY NOTES—*contd.*

COLUMBIA NEEDLES.

The perfection of the reproduction of Columbia Records depends upon the needles used. Columbia Needles (made in ten varieties) are the finest needles made and offer a wide range of volume. Each needle should be used once only unless otherwise stated.

CARE OF RECORDS.

Records should be kept clean. Dust and dirt contain grit that is destructive to the record playing surface. A special Columbia Record Cleaning Pad is available, having been specially designed to clean the record tracks.
Records should be stored in Albums, and in this way a library of music compiled. Columbia Record Albums, made in 10-inch and 12-inch sizes, each to hold 12 records, offer the best means of storing and reference.

COLUMBIA ACCESSORIES.

On the inside back cover is given a complete list of Columbia Needles and other Columbia accessories of importance to all who desire to secure the best results in reproduction.

A NOTE TO READERS.

While every effort has been made to present this Alphabetical Catalogue in its most practical, complete and concise form, corrections or suggestions for its improvement will be welcomed by the Editors. Communications should be addressed to the Columbia Graphophone Co., Ltd. (Catalogue Dept.), 98-108, Clerkenwell Road, London, E.C.1.

A Needle to Play Up to 60 Sides

COLUMBIA CHROMIUM NEEDLES

HERE'S a tremendous boon to gramophone owners—a new needle that will play up to 60 sides without changing. The NEW COLUMBIA CHROMIUM NEEDLE is actually introduced for use with automatic record-changing radiograms, but its convenience is such that it will naturally appeal to every user of records. No need now to worry—"Did I change the needle?" You need not do so for a long time with the Columbia CHROMIUM Needle. Being a Columbia product you know you are safe and that this Needle will ensure the true Columbia TONE with your Columbia records. It is, of course, suitable for all records.

For Prices, see page 2 of cover.

FIRST ENGLISH BOOK—A Series of Records for those whose Mother Tongue is not English, by WALTER RIPMAN, M.A. (*By special arrangement with the International Educational Society*).¶¶

Mr. Walter Ripman's " First English Book," published by Messrs. J. M. Dent & Sons, is described as " For Boys and Girls whose Mother tongue is not English." It occupies a unique position among schoolbooks. It is not likely that it can be said of any other book for teaching a foreign language that it has been found equally serviceable in Sweden and in Siam, in Chili and in China. Over 160,000 copies of the book have been sold.

These records very materially broaden the scope of this very successful system of learning English, conveying the actual sounds and pronunciation of letters and words as the printed method can never do, and renders the course suitable for *all* those " whose Mother tongue is not English."

The " First English Book " Album consists of twelve Double-sided 12-inch Records. Nos. 9809 to 9820 inclusive.

The Outfit includes a copy of Mr. Walter Ripman's " First English Book " at its published price.

FRENCH LANGUAGE RECORDS (Findlay-Gregg Language Series—Set 1) (*By special arrangement with the Gregg Publishing Co., Ltd.*)

Rarely does it occur that those who have learned a foreign modern language show any desire to engage in spontaneous conversation in that language. Professor Findlay, after experiment, found that by presenting simple pieces of French life to English students, the latter reacted with greater interest. He accordingly prepared a series of little episodes of French life and had them dramatised and acted by the child-actors of the Théâtre du Petit Monde, Paris, in the Columbia studio, and six records were made. . . . If you follow the voices on these Records *with the Book*, line by line, you will realise how French children and grown-up folk really talk. They laugh and chatter, cry and sing on every page. Those who have heard them say that "Every household in England will want some of these records."

The "French Language" Album consists of six Double-sided 12-inch Records. Nos. L2323 to L2328 inclusive. The Outfit includes a copy of "Nos Amis Français," at its published price.

GERMAN LANGUAGE RECORDS—(Findlay-Gregg Language Series—Set 2) (*Recorded under the direction of Professor J. J. Findlay, M.A., Ph.D., and the Gregg Publishing Co., Ltd.*)

The Author has produced a series of records of Episodes, dramatic in form and illustrative of what is best in modern German life, particularly as it affects German boys and girls. The voices heard are the natural expression of cultured German adults and children speaking and singing at the ordinary speed of the native. Beginners are intended, with the aid of the accompanying book, to learn and even to act the little episodes, and to sing the songs which occur in most of them. When they have done so they will have a goodly stock of phrases and sentences readily at their command, will be accustomed to speak them smoothly and without the bugbear of translation from the vernacular, and will be trained to listen to and hear German as it is normally spoken. With this as a background they will have all the material necessary for an elementary study of the language as a language, and will make very much more rapid progress than is usual by older methods.

COLUMBIA GRAPHOPHONE CO., LTD., LONDON, E.C.1.

International Educational Society.

THE Society has been formed for the purpose of establishing an interchange of selected lectures and lecture courses given by scholars of all nations and is in no sense a commercial undertaking. Lectures will be circulated by the employment of various mechanical devices, but, in the first instance, mainly through the medium of gramophone records.

The lectures will be given by men and women eminent in Literature, Science, Art and Music, and the Society hopes to reach not only the Universities and Colleges, but also the Public and Private Schools, the various organisations dealing with Adult Education and those men and women living in such isolation as to be debarred from sharing current educational facilities.

Any profits which may be made will be devoted to the foundation of scholarships and to the furtherance of education generally.

The COLUMBIA GRAPHOPHONE Co., Ltd., have been appointed Sole Official Publishers of the gramophone Lecture-records of the Society.

These records may be obtained from Gramophone Dealers or from the Columbia Graphophone Company, Ltd., or from the Society, 98, Clerkenwell Road, London, E.C.1.
